

# Fast Seal SP Seal

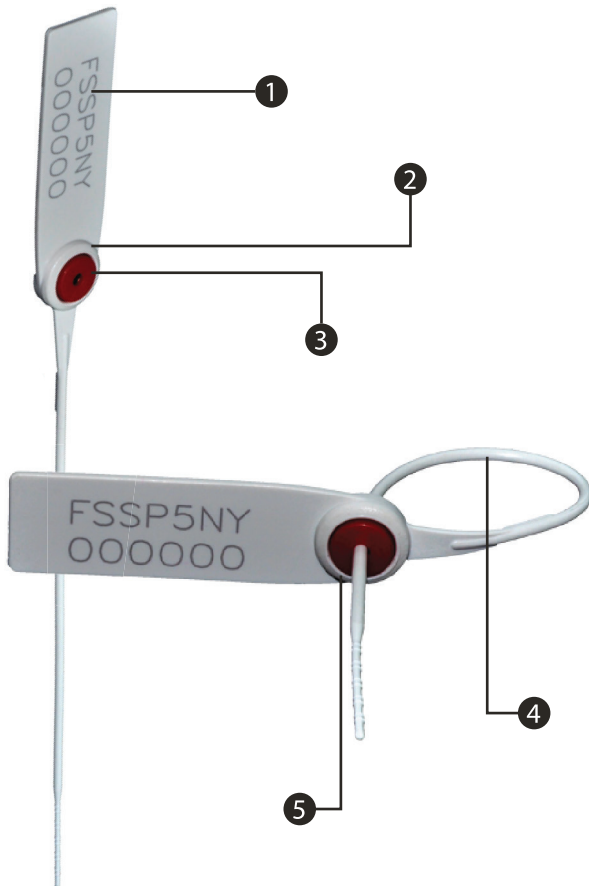

**MEGA FORTRIS  
NEW ZEALAND**

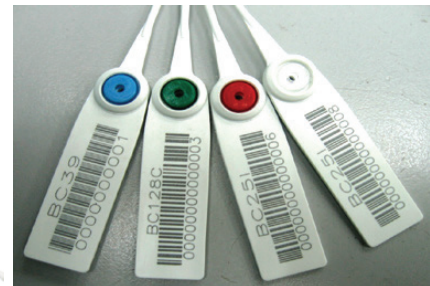

The Fast Seal SP is a strong and versatile pull-tight seal with metal locking mechanism.

The Fast Seal SP is a relatively strong seal despite its small dimensions. This is partly due to the metal locking mechanism, which secures the seal. The Fast Seal SP is available in either Polypropylene (PP) or Nylon. The characteristics of Nylon material is stronger and has better pull strength than the PP material.

The Fast Seal SP is easy to use for all applications with small sealing facilities e.g. cassettes for ATM machines and money boxes where the Fast Seal SP are widely utilised.

## Long Flap and Tear Off options

## FEATURES

- 1 The Fast Seal SP are etched with permanent laser marking for name, logo, sequential numbers & barcode. Laser marking offers the highest level of security as it cannot be removed and replaced. The long marking flap provides ample space for additional marking digits.
- 2 Heat staking technology is used to permanently fix the cap to the Fast Seal SP. Heat staking cannot be cut or forced open without leaving clear evidence for tampering.
- 3 A floating metal clip is securely shielded by a cap, providing great locking strength and security.
- 4 Durable Nylon or PP securing strap gives the user a choice of strength to match different applications. PP is also available in biodegradable material.
- 5 Colour coding is made possible by using combinations of multi-coloured seals and multi-coloured caps.

## SPECIFICATIONS

Product	Material	Locking Length	Strap Diameter
Fast Seal 5"	Polypropylene/Nylon	125mm	Ø 2.30mm
Fast Seal 8"	Polypropylene/Nylon	200mm	Ø 2.30mm
Fast Seal 12"	Polypropylene/Nylon	300mm	Ø 2.30mm

Product	Pull Strength	Marking Area	Max Marking Digits
Fast Seal 5"	15kg (PP)/18kg (NY)	Flap: 34mm x 14mm	13
Fast Seal 8"	15kg (PP)/18kg (NY)	Flap: 34mm x 14mm	13
Fast Seal 12"	15kg (PP)/18kg (NY)	Flap: 34mm x 14mm	13

Standard colours  
Red, yellow, white, green, blue
