

INDICATIVE SEAL

MINI FORT SINGLE LOCK (MFSL)

Pull-Tight Seal

Comprehensive security feature in a compact structure.

Mini Fort Single Lock is an indicative plastic seal with comprehensive features for security requirements. It has a double locking mechanism with ribs-structured strap to give clear signs of tamper evidence. It is designed with spikes at the back for better gripping. With a body fully made of plastic material, full decomposition is achievable.

These seals include the BioSphere bio-additive.

To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13th May 2024.

Applications:

- Retail Applications
- Postal Services
- Logistics
- Banking

Our biodegradable plastic additives go deeper, allowing microbes to consume the C-C bonds within plastic's structure at a macromolecular level. This increases the surface area of plastic products and enables plastophilic microbes to attach to the polymer's newfound cavities. So, unlike regular plastic that can sit in a landfill for hundreds or thousands of years, plastic enhanced with BioSphere attracts over 600 different types of microbes that effectively digest and consume it.

PREVENTION · PROTECTION · PEACE OF MIND

LASER MARKING OPTION

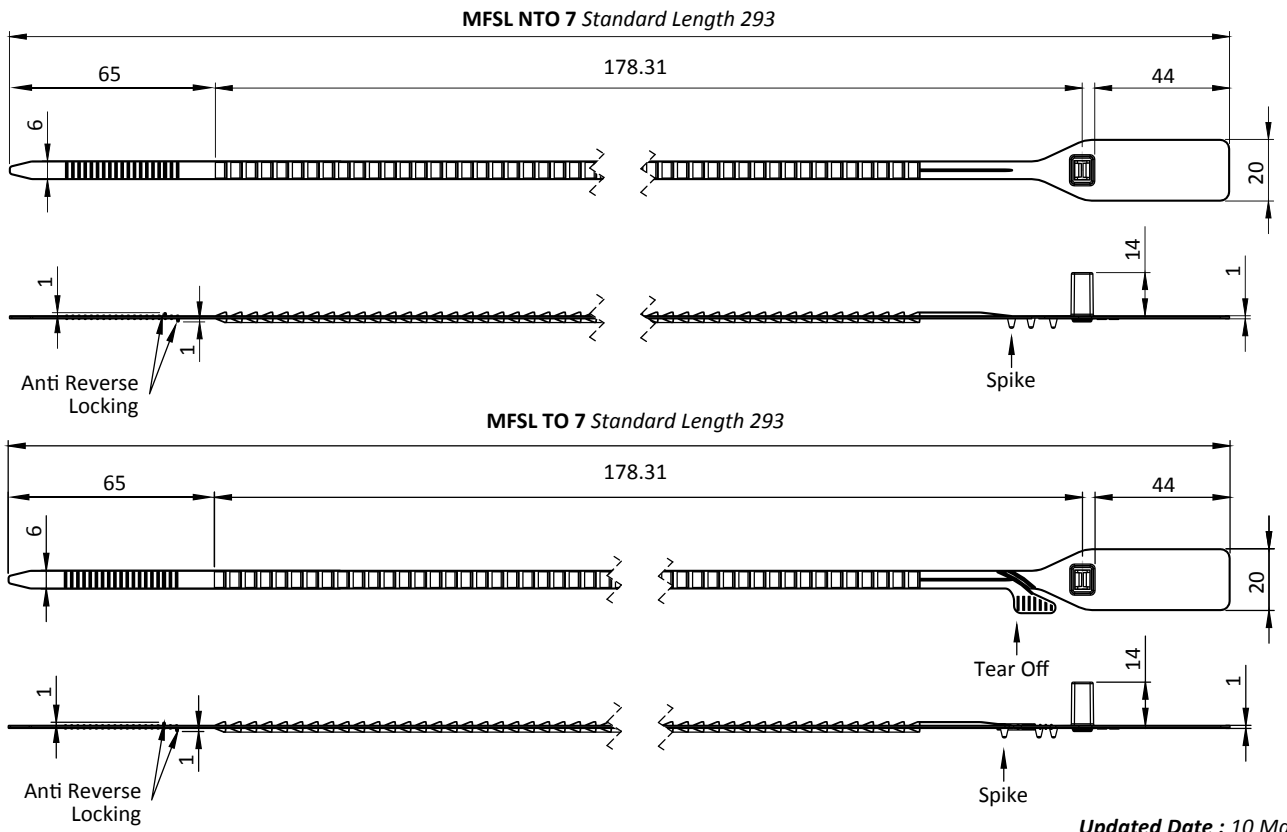

VIEW APPLICATION GIF

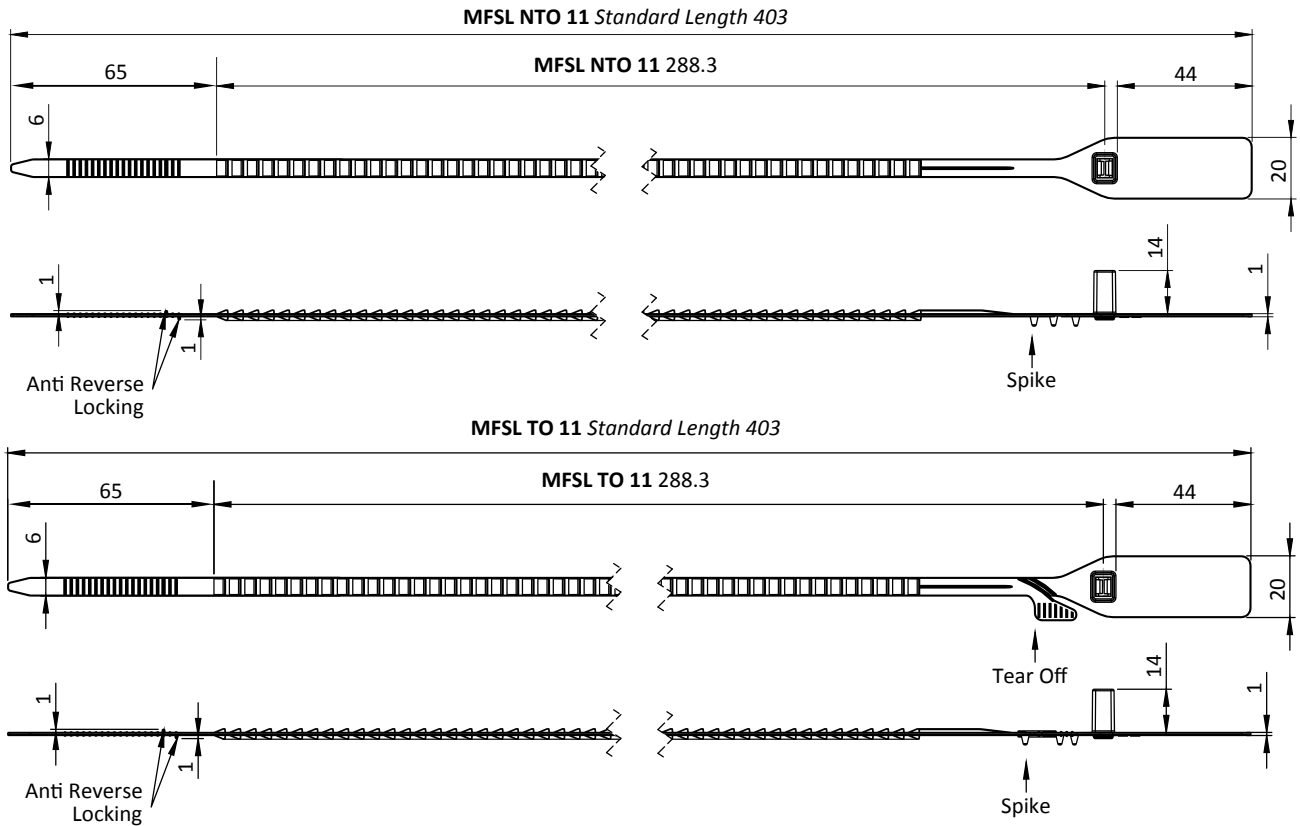

- 1** The Mini Fort Single Lock (NTO & TO) features a double locking mechanism in its fully Polypropylene (PP) moulded body for added security and durability.
- 2** The locking ribs on the seal provide better grip and stronger endurance during application. Tamper evidence signs are obvious on the strap.
- 3** Spikes are placed behind the seal to provide better grip on the application surface.
- 4** The larger flap allows ample space for identifier marking. Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the flap.
- 5** These seals include the BioSphere bio-additive.
- 6** A customized logo embedded at the back of the seal's flap is available upon request.
