

DSWP Dragon Seal

MEGA FORTRIS
NEW ZEALAND

The DSWP Seal has extensive tamper-evident features for versatile security needs.

The Dragon Seal WP is an advanced design in the Dragon Seal family with a wider and thicker strap. The strap is embedded with ribs and spikes for additional grip and clear evidence of tampering. It is durable to withstand rough handling and is versatile for security and authentication purposes.

Applications: Retail Applications, Postal Services, Logistics & Banking.

FEATURES

- 1 The Dragon Seal WP is molded with PP material with the metal lock ultrasonically encapsulated to complement the long, thick strap.
- 2 One-way locking mechanism is embedded for fast and easy application.
- 3 The locking ribs on the seal provide better grip and stronger endurance during application. Evidence of tampering will be clear on the strap.
- 4 The large flap allows ample space for identifier marking, Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the flap.
- 5 Spikes are placed behind the seal to provide better grip on the application surface.
- 6 Different strap lengths are available to cater for different applications.
