

Dunnage Bags

Woven PP Dunnage Air Bags

**MEGA FORTRIS
NEW ZEALAND**

The medium standard easybag can be used for medium and heavy loads.

Placed in the gaps between cargo and filled with air, the bags give no space for the cargo to move at all. On top of that, they are shock absorbing to the forces encountered during transportation. Suitable for all climactic conditions.

To be used in conjunction with the MegaFlow Air Gun / Inflator

Mega Fortris produces a wide range of NZ Customs Approved, ISO Compliant Container Seals.

All products available for immediate supply.

FEATURES

- 1 Prevent transport damage
- 2 Clever loading
- 3 Quick & easy to fit
- 4 Reusable and 100% recyclable
- 5 ISO 9001:2008 Certified
