**MEGA FORTRIS
NEW ZEALAND**

The FCS is the latest patented export device that is ISO and C-TPAT compliant. In New Zealand, the FCS is also approved for use within the NZ Customs Secure Export Scheme.

The FCS is the latest patented export device that is ISO and C-TPAT compliant. In New Zealand, the FCS is also approved for use within the NZ Customs Secure Export Scheme.

Please talk to us today about all your Secure Load Requirements including Strapping, Buckels, Dunnage Bags / Air Guns, Desiccants and more.

FEATURES

- 1 High-strength steel pin and bush for added security
- 2 Anti-spin locking mechanism prevents friction attack. One-way locking and more difficult to spin.
- 3 The pin and bush are moulded in high-impact PP material to form into a durable pin and plastic barrel.
- 4 Grooved design on the plastic barrel prevents tampering on the identifier.
- 5 The Fort Container Seals are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced. Identical sequential numbers on both parts provide greater security as it prevents parts substitution or replacement.
- 6 The two parts of the Fort Container Seal are joined together for easy handling.

SPECIFICATIONS

Material	Plastic: High Impact PP - Pin & Bush: Hardened Steel
Locking Length	50mm
Bolt Diameter	7mm
Pull Strength	1,000kg
Marking Area	Pin: 5mm x 50mm / Bush: 13mm x 23mm
Marking Digits	Serial no: 10 - Barcode: 8
Carton Quantity	250
Dimensions	485mm x 335mm x 162mm
Weight (kg/ctn)	13.1kg
Volume (m ³ /ctn)	0.026
Stock Colours	White, Dark Blue
