

Fort Mini Padlock

MEGA FORTRIS
NEW ZEALAND

The Fort Mini Padlock features a hook locking mechanism and slim structure for versatility and practicability.

Fort Mini Padlock features a hook locking head that is user-friendly in sealing all kinds of locking latches. The seal is designed with a slim and flay-lay structure, hence making it suitable for roughly handled applications.

The seal features a large marking area on the coloured body for detailed identifiers, easy reading, and colour coding.

FEATURES

1. The Fort Mini Padlock is molded with PP plastic material to ensure light and durable quality for different applications and clear evidence of tampering.
2. One-way snap-on locking mechanism is embedded for fast and easy application, as well as quick tamper-evident removal at the noticeable breaking point.
3. Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the body.
4. Biodegradable additives for plastic material are available.
