

GB001 Security Tape

Tamper-Evident Security Tape

MEGA FORTRIS
NEW ZEALAND

▼ PEEL SAMPLE OFF HERE ▼

The GB001 TT (Total Transfer) Tamper Evident Security Tape is very user-friendly and has been specifically designed to suit most applications and the special needs of those responsible for the transportation of valuable goods.

Tamper Evident Security Tape is made from the highest quality polyester material and adhesives that can withstand heat and cold attacks. The tape is perforated, with each perforation being easy to tear away and uniquely numbered making this a very low cost, high security product that requires no cutting tools.

Tamper Evident Security Tape provides the user with a physical evidence of tampering by revealing its hidden message if the tape is peeled. Furthermore, the surface of the tape is silicon coated to prevent resealing of the package by applying a new layer of tape over it if the original Tamper Evident tape is cut.

Tamper Evident Security Tape can be used in any hand held dispenser or be made in long rolls suitable for automatic application.
