

Reusable Bags

**MEGA FORTRIS
NEW ZEALAND**

Reusable Bags are specifically designed to secure confidential documents and sensitive information.

Our range of Reusable Security Bags and Locking Chambers are designed to properly secure industries handling marketing material, sensitive documents, cash, casino chips and cards as well as police exhibits.

Please note that it is not uncommon to have bags specially designed and produced to also suit unique requirements.

The security bags is secured by way of a unique tamper evident bag seal which is uniquely numbered for added security. Bags are also available with or without user-friendly carry handles.

FEATURES

- 1 The head and the end of the zipper is fully enclosed in the locking chamber when the bag is sealed
- 2 It is standard to use a reverse nylon zipper for added bag security (please enquire about zipper security)
- 3 A clear window for sender/receiver information is only accessible from the inside of the bag.
- 4 The window is made from clear vinyl and is ultrasonically welded on the bag.
- 5 The security bag seal is numbered by way of laser etching for added security.
- 6 The bags can be individually printed with company name and/or number for easy identification - minimum order applies.

SPECIFICATIONS

Material

- The standard bags are made of PVC backed nylon. This material has a special "rip-stop" feature, which minimizes the risk of accidental cuts from tearing the bag further. The material is flame retardant and water resistant. The bags can also be made in other materials such as Codura, Plastolene etc.
- Standard colours available on request

Locking

- The locking of the bags is done by placing a security seal in the locking chamber which encloses a zipper. Whenever the bag is opened – the seal will be broken.

The following are examples of stock items available in a range of locking chambers and colours

- Top Open Cash Bag (TOCB) 200mm wide x 280mm high x 65mm gusset
- Till Bag 455mm wide x 360mm high x 100mm gusset
