SECURITY SEAL

SP MINI CABLE LOCK 200 (SPMCL 200)

Pull-Tight Barrier Seal

Substantial surface and body for operation efficiency.

The SP Mini Cable Lock is ultrasonically welded with a coloured cover and white base plate. This feature allows for colour coding and ease of identification from afar. It is very user-friendly and highly tamper-evident to maximise security of assets.
Applications:

● Valve Sealing ● Retail Applications ● Logistics ● Banking

BIODEGRADABLE Plastic Seals

CABLE SEAL

1 SP Mini Cable Lock is constructed with a tough shell of Polypropylene (PP) and aluminium locking mechanism for security requirements. Multiple colours are available to be ultrasonically welded to the white base plate.

2 One-way locking mechanism is embedded for fast and easy application.

3 Two colours on the body improved laser markings definition, visibility, and identification.

4 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the body.

5 Biodegradable additives for plastic material are available.

6 Plastic material can withstand extreme weather conditions of -5°C to 80°C.
